Doniyorbek Asqaraliyev
Frontend Developer

I was admitted to Tashkent University of Information and Technology in 2018 and my first step in programming started here and I am still engaged in programming, now I am a Frontend developer, in 2020 I learned programming in PDP, then I continued to study in MayoqHub and further strengthened my knowledge. Now I'm learning React JS and MERN and other technologies, I created small and big projects! My goal is to work in large, friendly teams.
